The world around me

Earth

We live on the **Earth**. The Earth is a ball of rock, moving around the **Sun**.

The Earth gets light and heat from the Sun - two things that are needed for life.

Thus, without the Sun, there would be no life on Earth.

The Earth is made up of **land** and **water**.

It is also surrounded by air.

LAND

- ✓ *The part of the Earth's surface on which we live is called land.*
- ✓ *We grow the food we eat on land.*
- ✓ *We build houses, roads and rails on land.*
- ✓ *Forests too grow on land.*

WATER

- ❖ Most of the Earth is covered with water.
- ❖ Water is there in the seas and oceans, rivers, lakes and ponds.
- ❖ The water found in the oceans and seas is salty and cannot be used.
- ❖ We use the water found in rivers and lakes.
- ❖ Water has many uses. We need water to drink.
- ❖ We also need it for cooking, bathing and watering the plants in the fields.

AIR

- Air is found all around us.
- We cannot see it.
- But we can feel it when the wind blows.
- We breathe in air.
- Without air, we would not be able to live.

PLANTS

- ✓ The world around us is also made up of plants
- ✓ Plants are important for life on Earth.
- ✓ We get most of our food from plants.
- ✓ There are many different kinds of plants.
- ✓ Some, like the neem, are big and strong.
- ✓ There are called trees.
- ✓ Some, like the rose plant are short and bushy.
- ✓ They are called shrubs.
- ✓ Plants that are small and soft, like mint, coriander and grass, are called herbs.

ANIMALS

- *Animals too share this world with us.*
- *Animals like tigers and lions that live in the forest are called wild animals.*
- *Animals that live with us in our homes or farms are called domestic animals.*
- *Cows, sheep, hens and goats are domestic animals.*
- *We get milk, meat, eggs and wool from them.*

Taking care of our world

- *We should take care of the earth. It is our home.*
- *We must keep our surroundings clean.*
- *We must throw garbage only in bins.*
- *We must save water. Water is precious.*
- *Turn off the tap after you use it.*
- *We must not cut down trees.*
- *Trees help clean the air we breathe.*
- *They also bring rain and keep the air cool.*
- *Plant a tree on your birthday.*
- *Water it every day and take care of it.*
- *We must not dirty the air by burning garbage or bursting crackers.*

ACTIVITY:1

Choose the correct answer:

Domestic - Wild

Domestic - Wild

Domestic - Wild

Domestic - Wild

Domestic - Wild

Domestic - Wild

Domestic - Wild

Domestic - Wild

ACTIVITY:2

Write the missing letters:

1. Pl ____ n t s

2. Wa ____ e r

3. Ea ____ t h

4. A n i ____ a l s

5. O ____ e a n s

HEALTH TIPS

BENEFITS OF BLACK CHICKPEAS (KALA CHANA)

Kala Chana is a rich source of nutrition and also helps in treating various diseases especially digestive disorders and stomach disorders. Kala Chana also helps in clarifying the blood and makes the skin carry a glow of health. This is why a regular consumption of Kala Chana is very necessary for the modern times where nutrition is majorly adulterated.
